

Selenium Download PDF

Step 01: Search Selenium jar download in google

Step 02: Click on the Downloads | Selenium

The screenshot shows a web browser window with multiple tabs. The active tab is 'Downloads | Selenium'. The address bar shows the search URL: `in.search.yahoo.com/search?fr=mcafee&type=E211IN826G08p=selenium+jar+download`. The search bar contains the text 'selenium jar download'. Below the search bar, there are tabs for 'All', 'Images', 'Videos', and 'News', with 'All' selected. The search results show 'About 15,100,000 search results'. The first result is from 'www.selenium.dev' with the title 'Downloads | Selenium' and a green checkmark icon. Below this, there is a section 'People also search for' with links to 'org.openqa.selenium jar download', 'gecko driver download', 'chrome driver download', and 'chrome driver for selenium'. The second result is from 'www.journaldev.com' with the title 'Download Selenium JARs and Configure in Eclipse - JournalDev' and a green checkmark icon. The description for this result says: 'We just need to **download** the jars and include in eclipse. Step 1: Go to the official website and click on **Download** tab. Step 2: Click on **Download** link to **download** the jars for **selenium**. Step 3: Extrac...'. The third result is from 'www.java2s.com' with the title 'Download selenium-java-2.3.0.jar : selenium java « s « Jar ...' and a green checkmark icon. The description for this result lists several download links: 'Download selenium-java-client-driver-1.0-sources.jar', '12. Download selenium-java-client-driver-1.0-test-sources.jar', '13. Download selenium-java-testng-helper-1.0-beta-2-sources.jar', and '14. Download...'. The bottom of the screenshot shows the Windows taskbar with various application icons.

Step 03: Click on the Latest stable Version 3.141.59

The screenshot shows the Selenium Downloads page. The header includes the Selenium logo and navigation links: About, Downloads, Documentation, Projects, Support, Blog, and English. A search bar is also present. The main heading is "Downloads". Below it, a paragraph states: "Below is where you can find the latest releases of all the Selenium components. You can also find a list of previous releases, source code, and additional information for Maven users."

Selenium Server (Grid)

The Selenium Server is needed in order to run Remote Selenium WebDriver (Grid).

Latest stable version [3.141.59](#)

To use the Selenium Server in a Grid configuration see the [documentation](#).

Latest Selenium 4 Release Candidate version [4.0.0-rc-1](#)

The Internet Explorer Driver Server

Download version 3.150.2 for:

[32 bit Windows IE](#) (recommended)

Step 04: The jar folder will be downloaded in the end of the page.

This screenshot is similar to the previous one, showing the Selenium Downloads page. At the bottom of the page, a download bar is visible, showing a file named "selenium-server-standalone-jar" with a download icon and a "Show all" button.

Step 05: Create new folder in Desktop and name as "Selenium".

> This PC > Desktop

	Name	Status	Date modified	Type	Size
	New folder	✓	15-08-2021 18:25	File folder	
	Mani Class Files	✓	15-08-2021 18:43	File folder	
	new export	✓	15-08-2021 19:00	File folder	
	Reports	↻	14-09-2021 21:05	File folder	
	Selenium	↻	21-09-2021 11:59	File folder	
	SQL1	✓	17-03-2021 21:20	Text Document	1 KB

Step 06: Copy the jar file from Downloads and Paste it in the selenium folder.

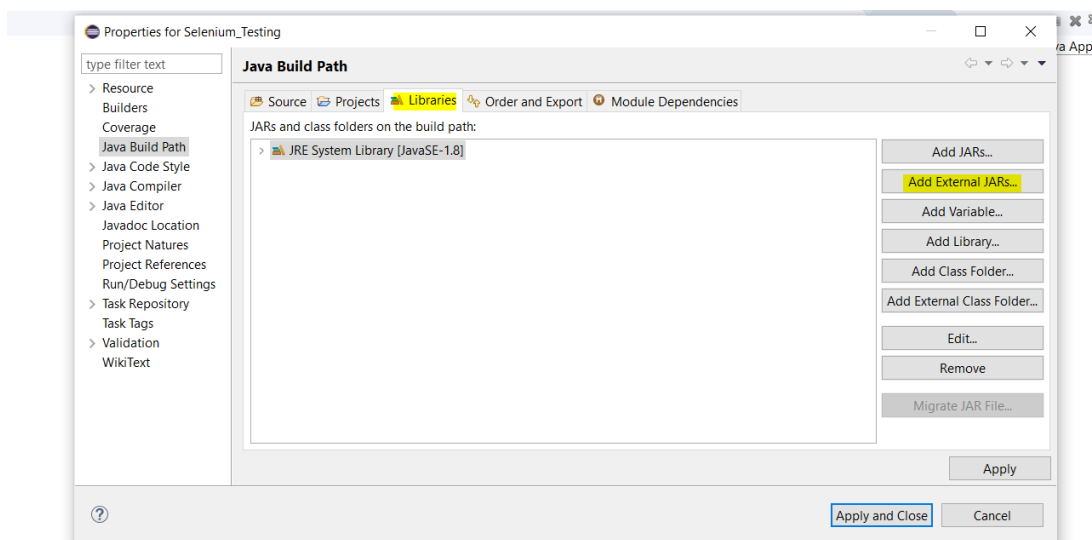

↓ > This PC > Downloads

	Name	Date modified	Type	Size
	Today (3)			
	selenium-server-standalone-3.141.59 (2)	21-09-2021 11:58	Executable Jar File	10,401 KB
	Collection	21-09-2021 10:12	Text Document	6 KB
	Selenium Intro	21-09-2021 08:36	Text Document	5 KB
	Vectornav (3)			

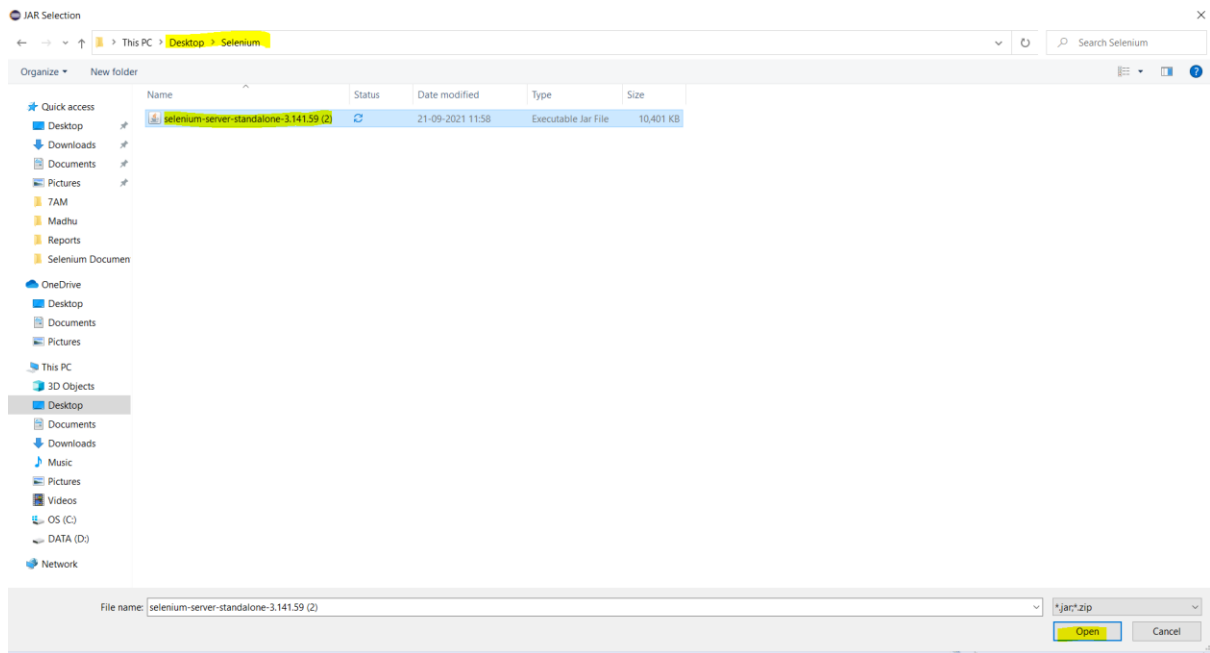

> This PC > Desktop > Selenium

	Name	Status	Date modified	Type	Size
	selenium-server-standalone-3.141.59 (2)	↻	21-09-2021 11:58	Executable Jar File	10,401 KB

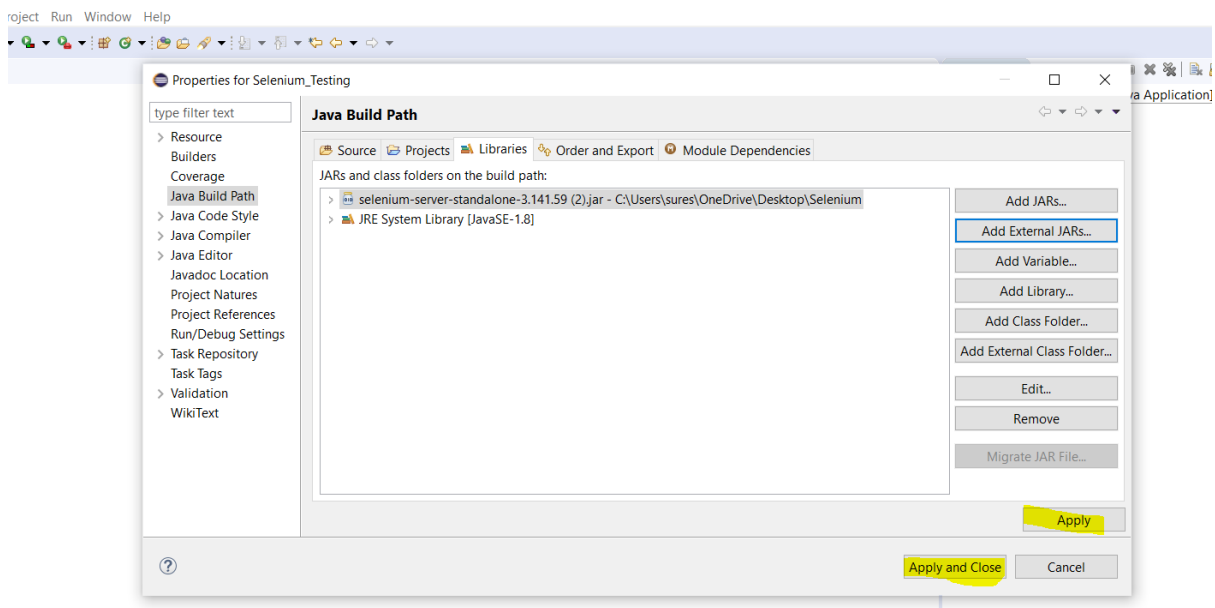

Step 07: In Eclipse create a new project and right click on the Project > Build Path > Configure Build Path > Libraries > click on Add External JARs

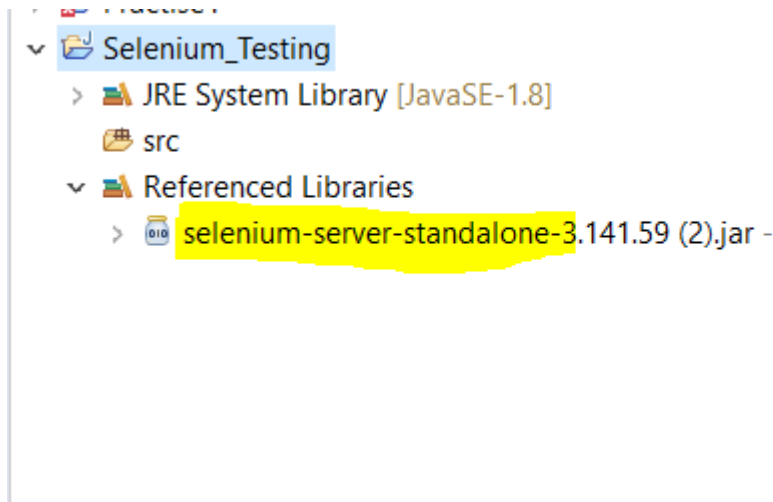

Step 08: Select the jar file from selenium folder and click on Open.

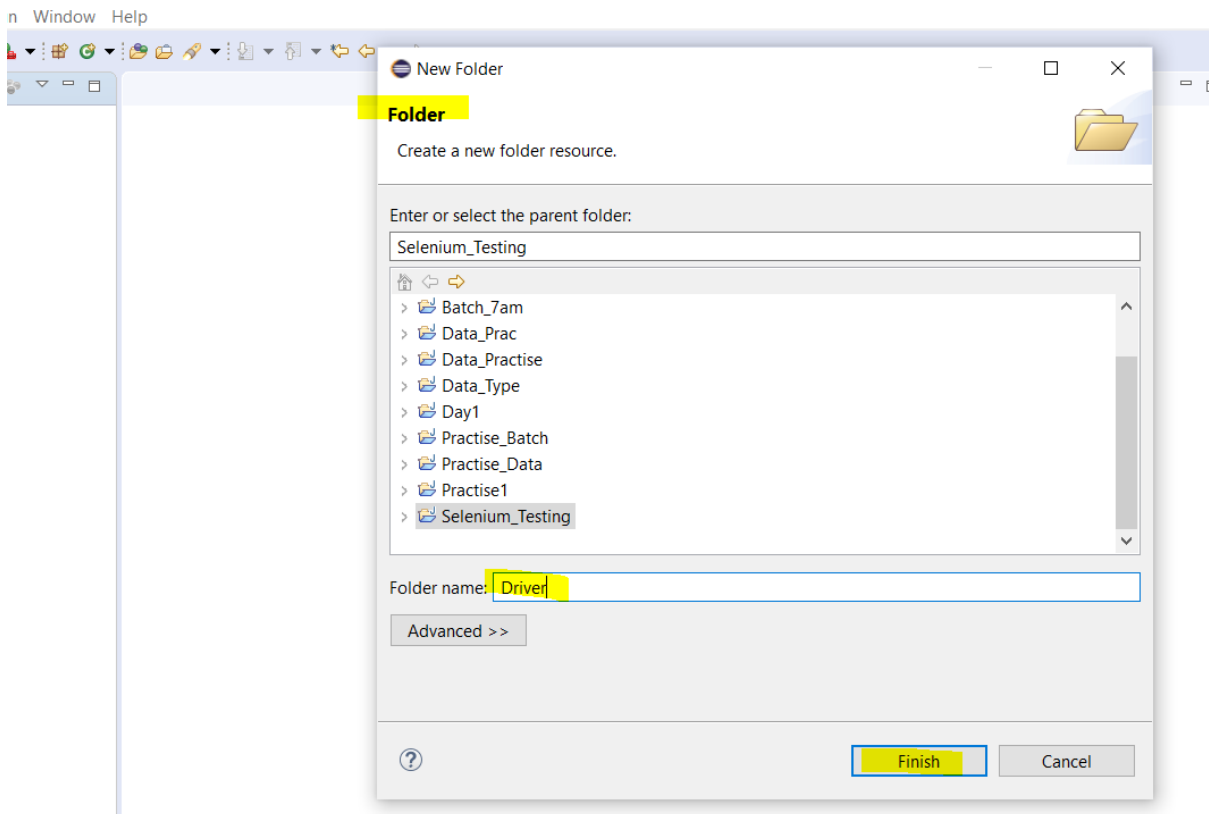

Step 09: Now click on Apply then click on Apply and Close.

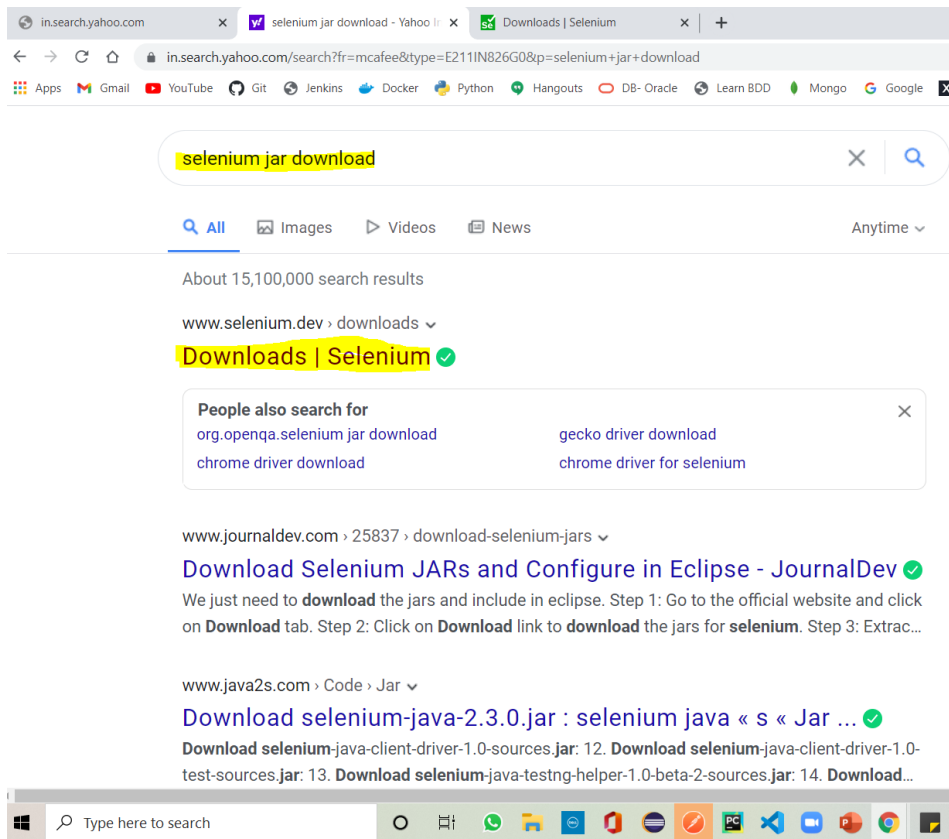

Step 10: Verify the jar file is added under the Reference Libraries.

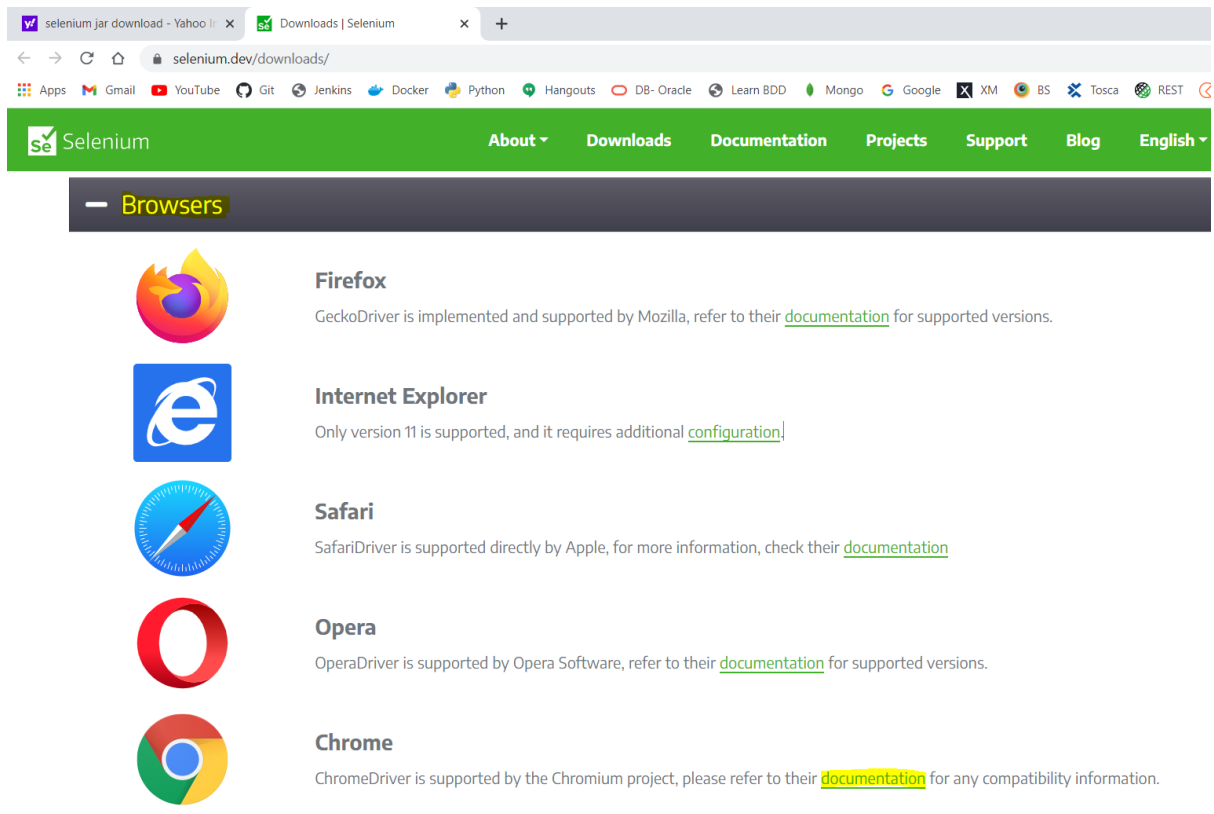

Step 11: Right click on the Project created in Step 07 and create a New Folder and name as “Driver”.

Step 12: In Google search Selenium jar download click on Downloads | Selenium.

Step 13: Scroll down and expand the Browsers then click on the documentation in Chrome

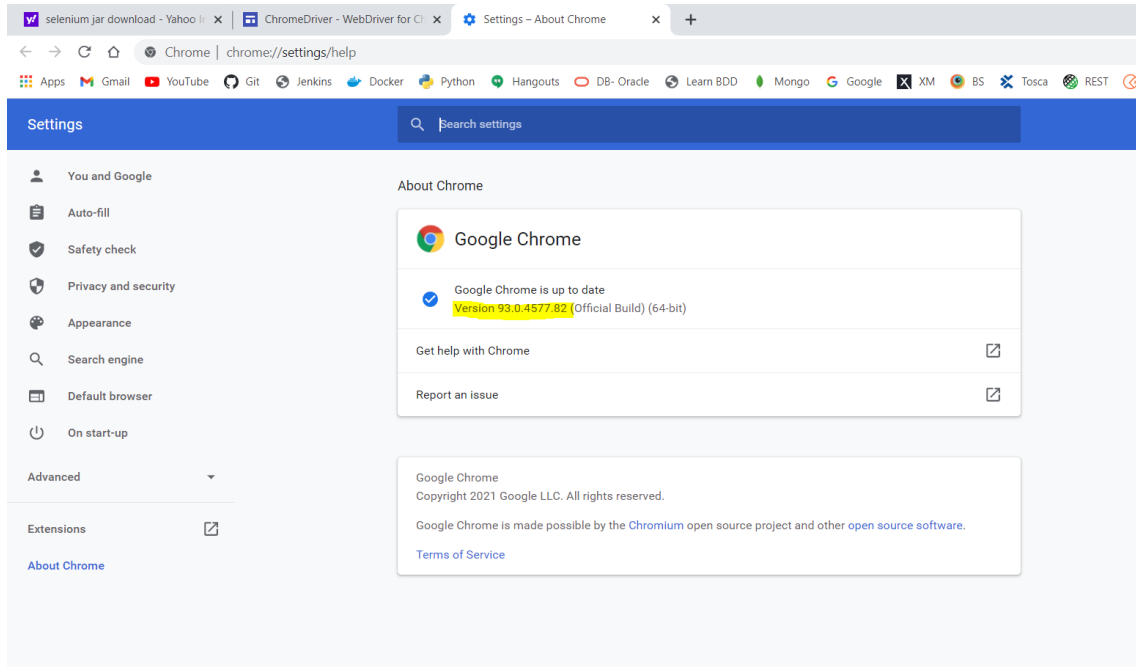

Step 14: Check the Chrome Version before downloading.

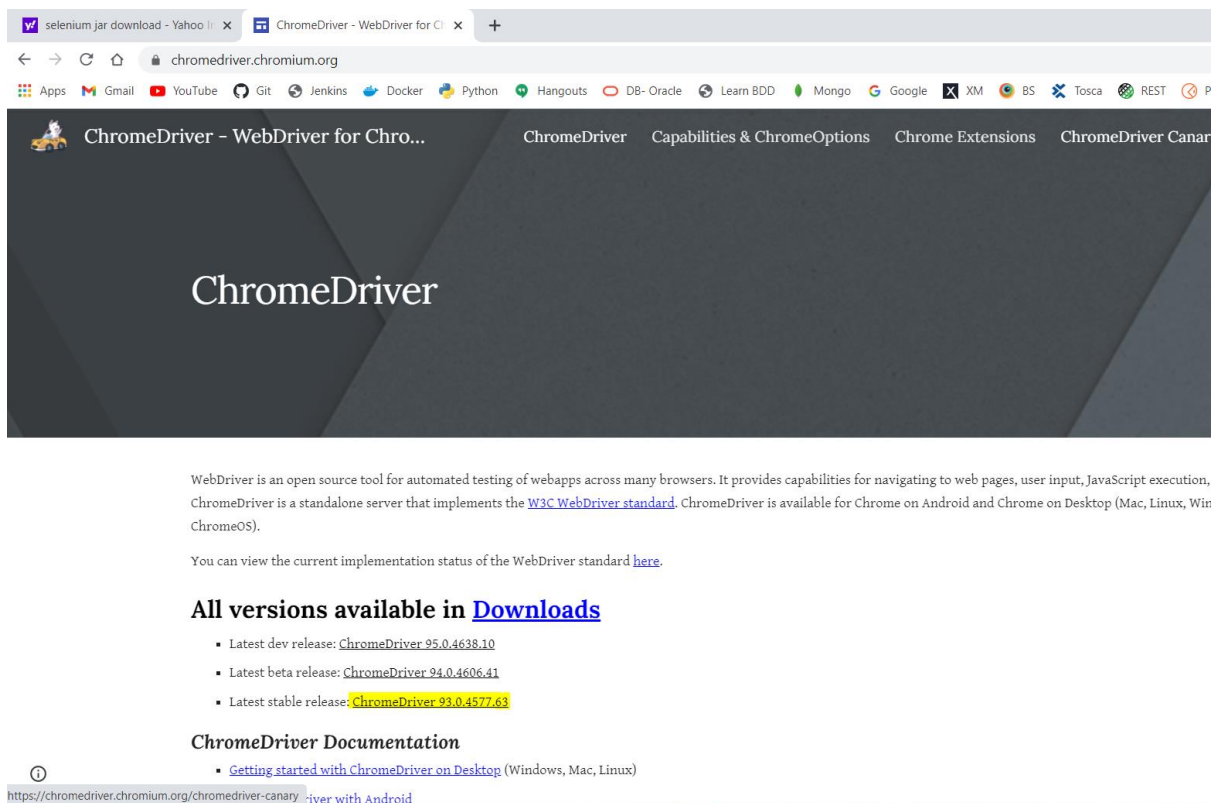

How to check the Chrome Version:

→ Click on the 3 dots in the right corner of the window > Help > About Google Chrome > check the version and then download the same ChromeDriver version.

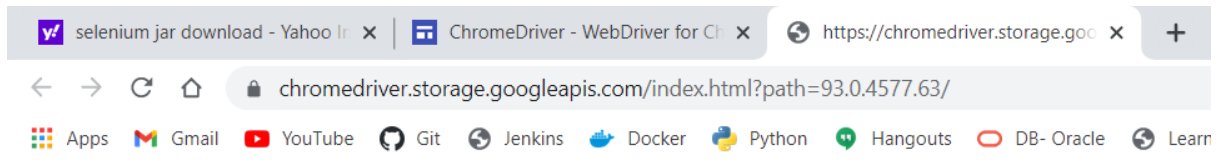

For example: If Chrome version is 93 then download the ChromeDriver with version 93.

Step 15: Now click on the Latest Stable release ChromeDriver 93.0.4577.63 version.

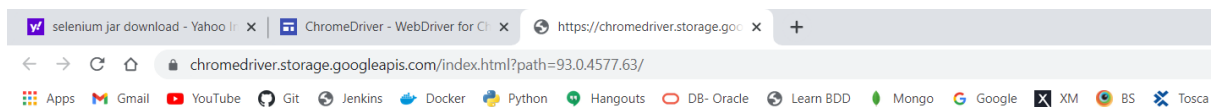

Step 16: Click on the chromedriver_win32.zip and Make sure the chromedriver_win32.zip is downloaded in end of the page

Step 17: From the Downloads Extract the file and save in Selenium folder

Step 18: Now Copy the chromedriver from selenium folder and paste it in the Driver folder created inside the eclipse.

THE END
